CONTENTS VOLUME 138

Issue 1

HUMAN AND ANIMAL MYCOLOGY

Antigenic relationships among pathogenic *Beauveria bassiana* with *Engyodontium album (=B. alba)* and non-pathogenic species of the genus *Beauveria* – A.S. Sekhon, A.A. Padhye, L. Kaufman, A.K. Garg, L. Ajello, E. Ambrosie & T. Panter 1–4

Virus-like particles in conidia and hypha of *Arthrinium aureum* – M. Angeles Calvo, M. Agut, R.M. Calvo & J. Larrondo 5–6

Influence of essential oil of *Hyssopus officinalis* on the chemical composition of the walls of *Aspergillus fumigatus* (Fresenius) – B. Ghfir, J.L. Fonvieille & R. Dargent 7–12

Quantification of thigmotropism (contact sensing) of *Candida albicans* and *Candida tropicalis* – H. Nikawa, H. Nishimura, T. Hamada & S. Sadamori 13–19

Protein a induced protection against experimental Candidiasis in mice – A.K. Srivastava, K.P. Singh & P.K. Ray 21–28

Effect of iron on fluconazole activity against *Candida albicans* in presence of human serum or monocyte-derived macrophages – Y. Minn, E. Brummer & D.A. Stevens 29–35

Antigenic similarities to *Paracoccidioides brasiliensis* in thermo-dependent dimorphic fungi isolated from soil in Botucatu, SP, Brazil – A. Sano, K. Nishimura, Y. Horie, M. Franco, R.P. Mendes, K.I. Rabello Coelho, S.H. Barbin Scapolio, K. Fukushima, Z. Pires dé Camargo, M. Miyaji & M. Rubens 37–41

PLANT MYCOLOGY AND CROP PROTECTION

Effect of 2-deoxy-D-glucose on mycotoxins from apples inoculated with *Penicillium expansum* – S. Kazi, R.R.M. Paterson & N.F. Abo-Dahab 43–46

Foliar blight in *Centrosema pubescens* (Benth.) in southwestern Nigeria – V.O. Oben, N.A. Amusa & I. Ezenwa 47–50

Issue 2

HUMAN AND ANIMAL MYCOLOGY

Usefulness of a microimmunodifussion test for the detection of *Penicillium marneffei* antigenemia, antibodies, and exoantigens – P. Imwidthaya, A.S. Sekhon, T.D. Mastro, A.K. Garg & E. Ambrosie 51–56

Influences of immunosuppressive agents, FK506 and cyclosporin on systemic *Candida albicans* infection in mice – E. Ito & Y. Tanaka 57–64

Monocyte adherence to *Paracoccidioides brasiliensis*, zymosan-C3b and erythrocyte-hemolysin in patients with paracoccidioidomycosis – M.A. Shikanai-Yasuda, C.M. Assis, K.M. Takeda, N. Tamashiro & J.P. Bueno 65–69

MYCOTOXICOSES AND MYCOTOXINS

Severe hepatopathy in geese and broilers associated with ochratoxin in their feed – A. Shlosberg, N. Elkin, M. Malkinson, U. Orgad, V. Hanji, E. Bogin, Y. Weisman, M. Meroz & R. Bock 71–76

Handling and aflatoxin contamination of white maize in Costa Rica – M. Mora & J. Lacey 77–89

Screening of fungi for the presence of the trichodiene synthase encoding sequence by hybridization to the *Tri5* gene cloned from *Fusarium poae* – C. Fekete, A. Logrieco, G. Giczey & L. Hornok 91–97

Effects of penitrem A on rat's performances in passive avoidance and Morris water maze tests – O. Deschaux & J.-C. Bizot 99–104

Book reviews 105–107

Issue 3

HUMAN AND ANIMAL MYCOLOGY

Different protein kinase C isoforms are present in the yeast and mycelium forms of *Sporothrix schenckii* – E.E. Aquino-Piñero & N. Rodríguez-del Valle 109–115

Temperature and moisture requirements for conidial germination of an isolate of *Beauveria bassiana*, pathogenic to *Rodnius prolixus* – C. Luz & J. Fargues 117–125

The influence of surface carbohydrates on the interaction of *Fonsecaea pedrosoi* with Chinese Hamster Ovary glycosylation mutant cells – C.L. Limongi, S. Rozental, C.S. Alviano & W. de Souza 127–135

Immunologic, genetic and social human risk factors associated to histoplasmosis: Studies in the State of Guerrero, Mexico – M.L. Taylor, A. Pérez-Mejia, J.K. Yamamoto-Furusho & J. Granados 137–141

PLANT MYCOLOGY AND CROP PROTECTION

A synopsis of the occurrence and pathogenicity of *Phytophthora* species in mainland China – H.H. Ho & J.Y. Lu 143–161

Colonization pattern of aquatic hyphomycetes on leaf packs in subtropical stream – A.M. Abdel-Raheem 163–171

Volume contents 173–174
